An efficient approach for determining a value is to send out a survey to your present customers. If these customers have already purchased an book from you, ask for his or her opinion in terms of price. Do that by creating a gross sales web page for the brand new guide, but do not embrace a value on that page. As a substitute, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to test out costs by creating a number of duplicate sales pages with different prices on every page. Be certain your sales copy is strictly the similar on every web page, and includes your promoting-deal with sentence. Then work out for each page the conversion ratio between guests to your site and sales of your book. It will inform you what your optimum value is.

In the end, if you've written a book that solves a downside or presents a brand new technique, your e-book will herald both traffic and profits.
