An effective approach for determining a value is to ship out a survey to your current customers. If these prospects have already bought an e book from you, ask for their opinion when it comes to

price. Do this by making a sales web page for the new book, but do not embrace a price on that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to test out prices by making a number of duplicate sales pages with different costs on every page. Ensure your sales copy is precisely the identical on every web page, and consists of your selling-handle sentence. Then work out for every web page the conversion ratio between visitors to your site and sales of your book. It will inform you what your optimum price is.

Finally, when you've written a book that solves a problem or presents a brand new approach, your e book will bring in each site visitors and profits.
