The important thing that unlocks the gross sales potential of your book is to discover a single sentence that becomes your selling handle. This sentence states what question or drawback your book answers and the advantages your e-book can provide. Then remember to use that sentence in each piece

of gross sales and promotional material, and every time anyone asks you about your ebook.

An efficient approach for figuring out a value is to send out a survey to your present customers. If these prospects have already bought an ebook from you, ask for his or her opinion by way of price. Do this by making a gross sales page for the new guide, but do not embody a value on that page. Instead, add quite a lot of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to test out prices by creating a number of duplicate sales pages with totally different costs on every page. Ensure that your gross sales copy is strictly the same on every web page, and contains your selling-deal with sentence. Then figure out for every web page the conversion ratio between guests to your site and sales of your book. This may inform you what your optimum value is.

Finally, in case you've written a book that solves a problem or presents a new technique, your ebook will bring in both traffic and profits.
