Besides promoting your books assiduously on-line, there are several different methods that can help you sell extra books.

One is to give something away totally free along with your ebook, such as a priceless bonus item. Or bundle a number of ebooks underneath one worth, which lowers the value for every ebook if they have been bought separately.

An effective method for figuring out a worth is to send out a survey to your present customers. If these customers have already bought an book from you, ask for their opinion in terms of price. Do this by making a sales page for the brand new book, but don't include a value on that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other technique is to check out costs by making a number of duplicate sales pages with totally different costs on every page. Be sure your sales copy is precisely the same on every page, and

includes your promoting-deal with sentence. Then work out for every page the conversion ratio between guests to your website and gross sales of your book. This may tell you what your optimum price is.
